## Marjon Ceramics Tucson Gets New Paint Job

## New Skutt 22" deep Kilns

Teachers and potters have been telling us we need a new line of kilns that hold lots of pots and are still easy for shorter potters to load. The 22" Series of kilns do just that. Previously, there were no models in-between 18" and 27" of chamber depth. The 22" deep models give the vertically challenged potter the perfect combination of volume, safety and comfort.

**Buy a tootsie roll pop for \$2.00 to receive a chance to win a KM822. Drawing will be held during Clay Olympics 10/29/2011**
