

Master Series

M250, M400, M750 (with optional splashpan and table)

The Master is engineered with excellence for an ideal concept that produces remarkable power combined with extremely smooth speed adjustment. The ideal is achieved by using state-of-the-art components, such as:

- Remote foot pedal
- Poly-V belt drive system
- Industrial grade PWM (Pulse Width Modulation) controller
- High grade ceramic potentiometer
- Reversing option

The power of the Master is matched only in its durability and essentially noiseless operation. The master's fully enclosed body case keeps internal parts dry, clean and out of reach, while the removable bottom plate allows easy access if necessary.

Mini-Master

M1 (with optional splashpan)

The Mini-Master is small and compact yet constructed for durability. It features a heavy-duty enclosed body to protect all internal parts, keeping them dry, clean and out of reach.

The Mini-Master features state-of-the-art, industrial grade DC motor, controller and ceramic potentiometer, for desired power at all RPMs.

The Mini-Master's superior components are housed in our unique enclosed design that virtually eliminates vibration and makes it quiet, quiet, quiet!

The Mini-Master's small size offers ease in transporting for teaching and demonstrations or storage in a studio where space is at a premium.

MODEL	M1	M250	M400	M750
Motor Power	1/3 HP, 250 W 115 V, 60 Hz, AC	1/3 HP, 250 W 115 V, 60 Hz, AC	1/2 HP, 400 W 115 V, 60 Hz, AC	1 HP, 750 W 115 V, 60 Hz, AC
Centering	25+ lbs	25+ lbs	50+ lbs	100+ lbs
Dimensions	26"x20"x20"	30"x20"x20"	30"x20"x20"	30"x20"x20"
Shipping Weight	80 lbs	115 lbs	125 lbs	130 lbs
Wheelhead Diameter	12"	12"	14"	14"
Wheelhead Material	Cast aluminum alloy, concentric circles every inch, bat pins			
Wheelhead Speed & Direction	0-250 RPM Counter-clockwise (reversing option)			
Drive System	Poly-V Belt			
Speed Control	Remote foot pedal, industrial -grade PWM controller, high-grade, long-lasting ceramic potentiometer			
Warranty	2 years parts and labor			
Splashpan	SW-RKP-027		SW-RKP-027L	
Table	n/a		BPB00160 (44"x15")	

220V 50/60 Hz available 1 carton UPS/RPS shipped fully assembled ready for use

RK-10 Series

RK-10 (with optional splashpan and table)

At the heart of the wheel is our patented RX infinitely-adjustable speed drive system that multiplies power automatically. As speed is reduced, torque is increased up to 700%. The pure traction design allows the full-rated power of the motor to be transmitted through a rolling motion—no gears or sensitive electronic control circuitry! No need for more horsepower!

Features include:

- Fixed foot pedal
- Patented RX Traction Drive System that increases torque in speeds as low as 1 rpm
- Wheelhead rotates both clockwise and counter-clockwise

MODEL	RK-10 Basic	RK-10 Super
Motor Power	1/4 HP, 200 W, 115 V, 60 Hz, AC	1/3 HP, 250 W, 115 V, 60 Hz, AC
Centering	50 + lbs	100 + lbs
Dimensions	26"x18"x19"	26"x18"x19"
Shipping Weight	110 lbs	110 lbs
Wheelhead Diameter	12"	12"
Wheelhead Material	Cast Aluminum alloy, concentric circles every inch, bat pins	
Wheelhead Speed & Direction	0-250 RPM Counter-clockwise/Clockwise	
Speed Control System	Fixed pedal and lever control	
Warranty	2 years parts and labor	
Splashpan	1 or 2 piece	
Table	BPB00160 (44"x15")	

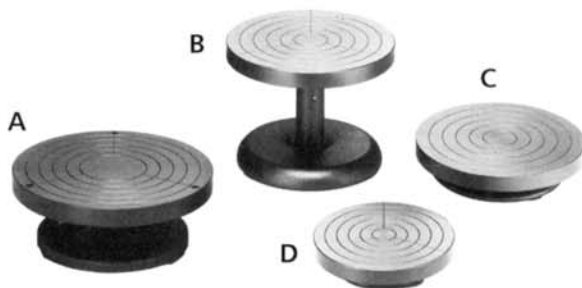

220V 50/60 Hz available 1 carton UPS/RPS shipped fully assembled ready for use

Accessories

Our convenient table quickly attaches to any model. Its innovative curved shape furnishes approximately 4 square feet of reachable, usable space for water, tools and clay. Easy-clean formica top. The table measures approximately 44" x 15".

Our new large-format, 1-piece splashpan easily accommodates the 14" wheelhead, large bats and wide pieces. Designed for comfort while seated, room to work and effortless, efficient cleaning whether in a large classroom, small studio or at home.

Banding Wheels

Shimpo banding wheels are top of the line studio equipment designed to provide reliably smooth and true rotation especially needed when applying delicate and fine touches to your work. Constructed from cast-iron, coated with top grade, rust resistant paint; assembled with the best, long-wearing, sealed ball bearings these banding wheels are favored by studio artists, production plants and classrooms. There is no better banding wheel on the market.
